

SikaRoof[®] MULTITAPE

MULTI FUNCTIONAL, SINGLE SIDED - SELF ADHESIVE TAPE

BUILDING TRUST

SikaRoof® MULTITAPE

GENERAL PRODUCT INFORMATION

MULTI FUNCTIONAL SikaRoof® MULTITAPE. For the sealing, joining, covering and temporary repair of single ply, bituminous and metal roofs since it bonds to the most common roofing materials in a short application time with a strong initial tack.

SikaRoof® Multitape

DESCRIPTION

SikaRoof® Multitape is a single-sided adhesive tape. It has a FPO membrane layer and a butyl rubber adhesive layer.

USES

The Product bonds to a wide range of substrates:

- FPO or PVC waterproofing membrane
- Metal
- Concrete, brick or plaster
- Plywood or OSB
- Bitumen – sanded or slated

The Product may only be used by experienced professionals.

CHARACTERISTICS / ADVANTAGES

- High tack and long-term adhesion
- No lateral water underflow
- UV-resistant PP membrane layer
- Easy to apply with instant adhesion

APPEARANCE / COLOR

- Beige
- Window grey (~RAL 7040)
- White (~RAL 9016)

TECHNICAL INFORMATION

Thickness: Overall 1.70 mm

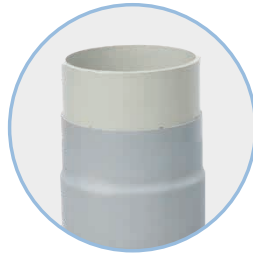

Width	Length	Window grey	White	Beige
100 mm	15.00 m	●	●	●
170 mm	15.00 m	●	●	●
250 mm	12.50 m	●		●

Features	Advantages	Benefits
Instant adhesion Peel and stick	Instant waterproof	Easy repair solution by sealing with the tape on damaged roofing membrane without electricity.
UV-Resistant top layer in various colors.	Durable product performance in all climate condition.	Long lasting system solution in all climate condition.
Good adhesion to various substrates	One product for various applications.	Save and ease product and system evaluation.
Double side finger-lift	Easy to remove the release liner from the tape.	Easy, efficient, and clean application of the tape.
Solvent free product	Contains no hazard ingredients or solvents.	Save solution regarding health and safety.
Connection PVC to FPO	Simple temporary connection solution.	Easy, efficient system application. Tape application on PVC followed by welding FPO membrane on top of the tape.

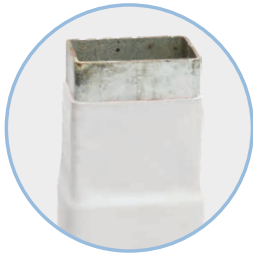

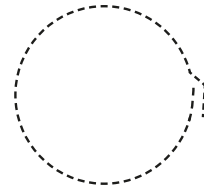

Substrate	Primer Free	Primer-130	Primer-600
FPO / PVC	●

CLEANING PROCESS BEFORE REPAIRING

The following set is recommended for the cleaning ahead:

SikaRoof® Clean Set Detail

DESCRIPTION

SikaRoof® Clean Set Detail consists of various cleaning items.

USES

To clean small areas of polymeric membrane surfaces.

CHARACTERISTICS / ADVANTAGES

- Fast and easy to use
- Water-based cleaning liquid
- Economical usage

CLEANING

1. Soak SikaRoof® Clean Pad Detail with water (must be completely wet).

2. Spray / apply SikaRoof® Clean Agent onto the surface to be cleaned.

3. Clean with SikaRoof® Clean Pad Detail (use the hand pad holder).

4. Remove remaining liquid on the cleaned surface with a cleaning towel.

SikaRoof® MULTITAPE

REPAIRING / ADHESION

REPAIRING

5. Proper cleaning of existing area to be repaired (as explained under CLEANING).

6. Cut SikaRoof® Multitape to the needed length.

7. Remove of finger-lift release liner.

8. Attaching of SikaRoof® Multitape with pressure roller.

ADHESION

Fast and easy application due to incorporated finger-lift to remove the release liner.

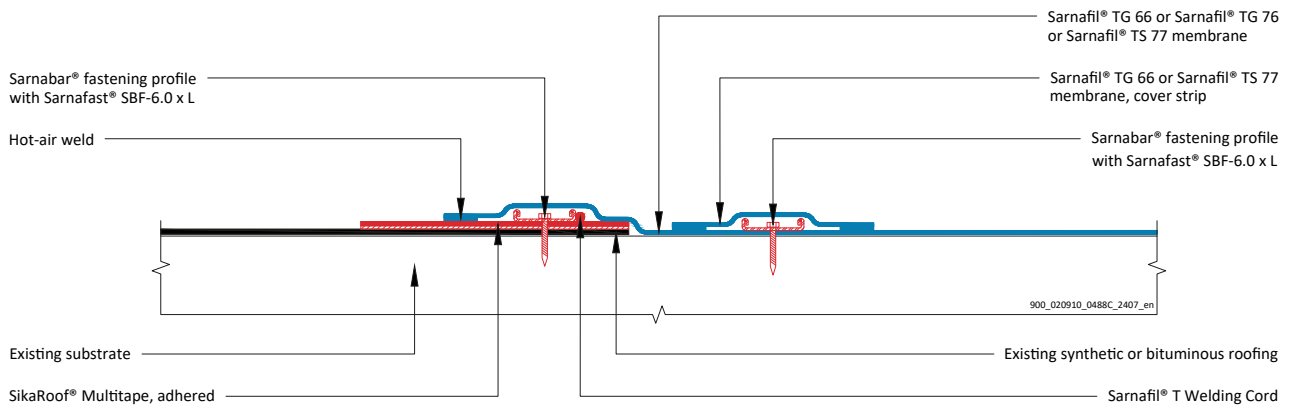

Product adheres on various substrates and geometries due to his flexible nature.

Butyl adhesive special designed for roofing application with very good adhesion on various substrates.

SikaRoof® MULTITAPE

CONNECTION SOLUTION

1. Installation of SikaRoof® Multitape on top of existing synthetic or bituminous roofing.

2. Installation of Sarnabar® fastening profile with Sarnafast® Fasteners and Sarnafil® T Welding Cord.

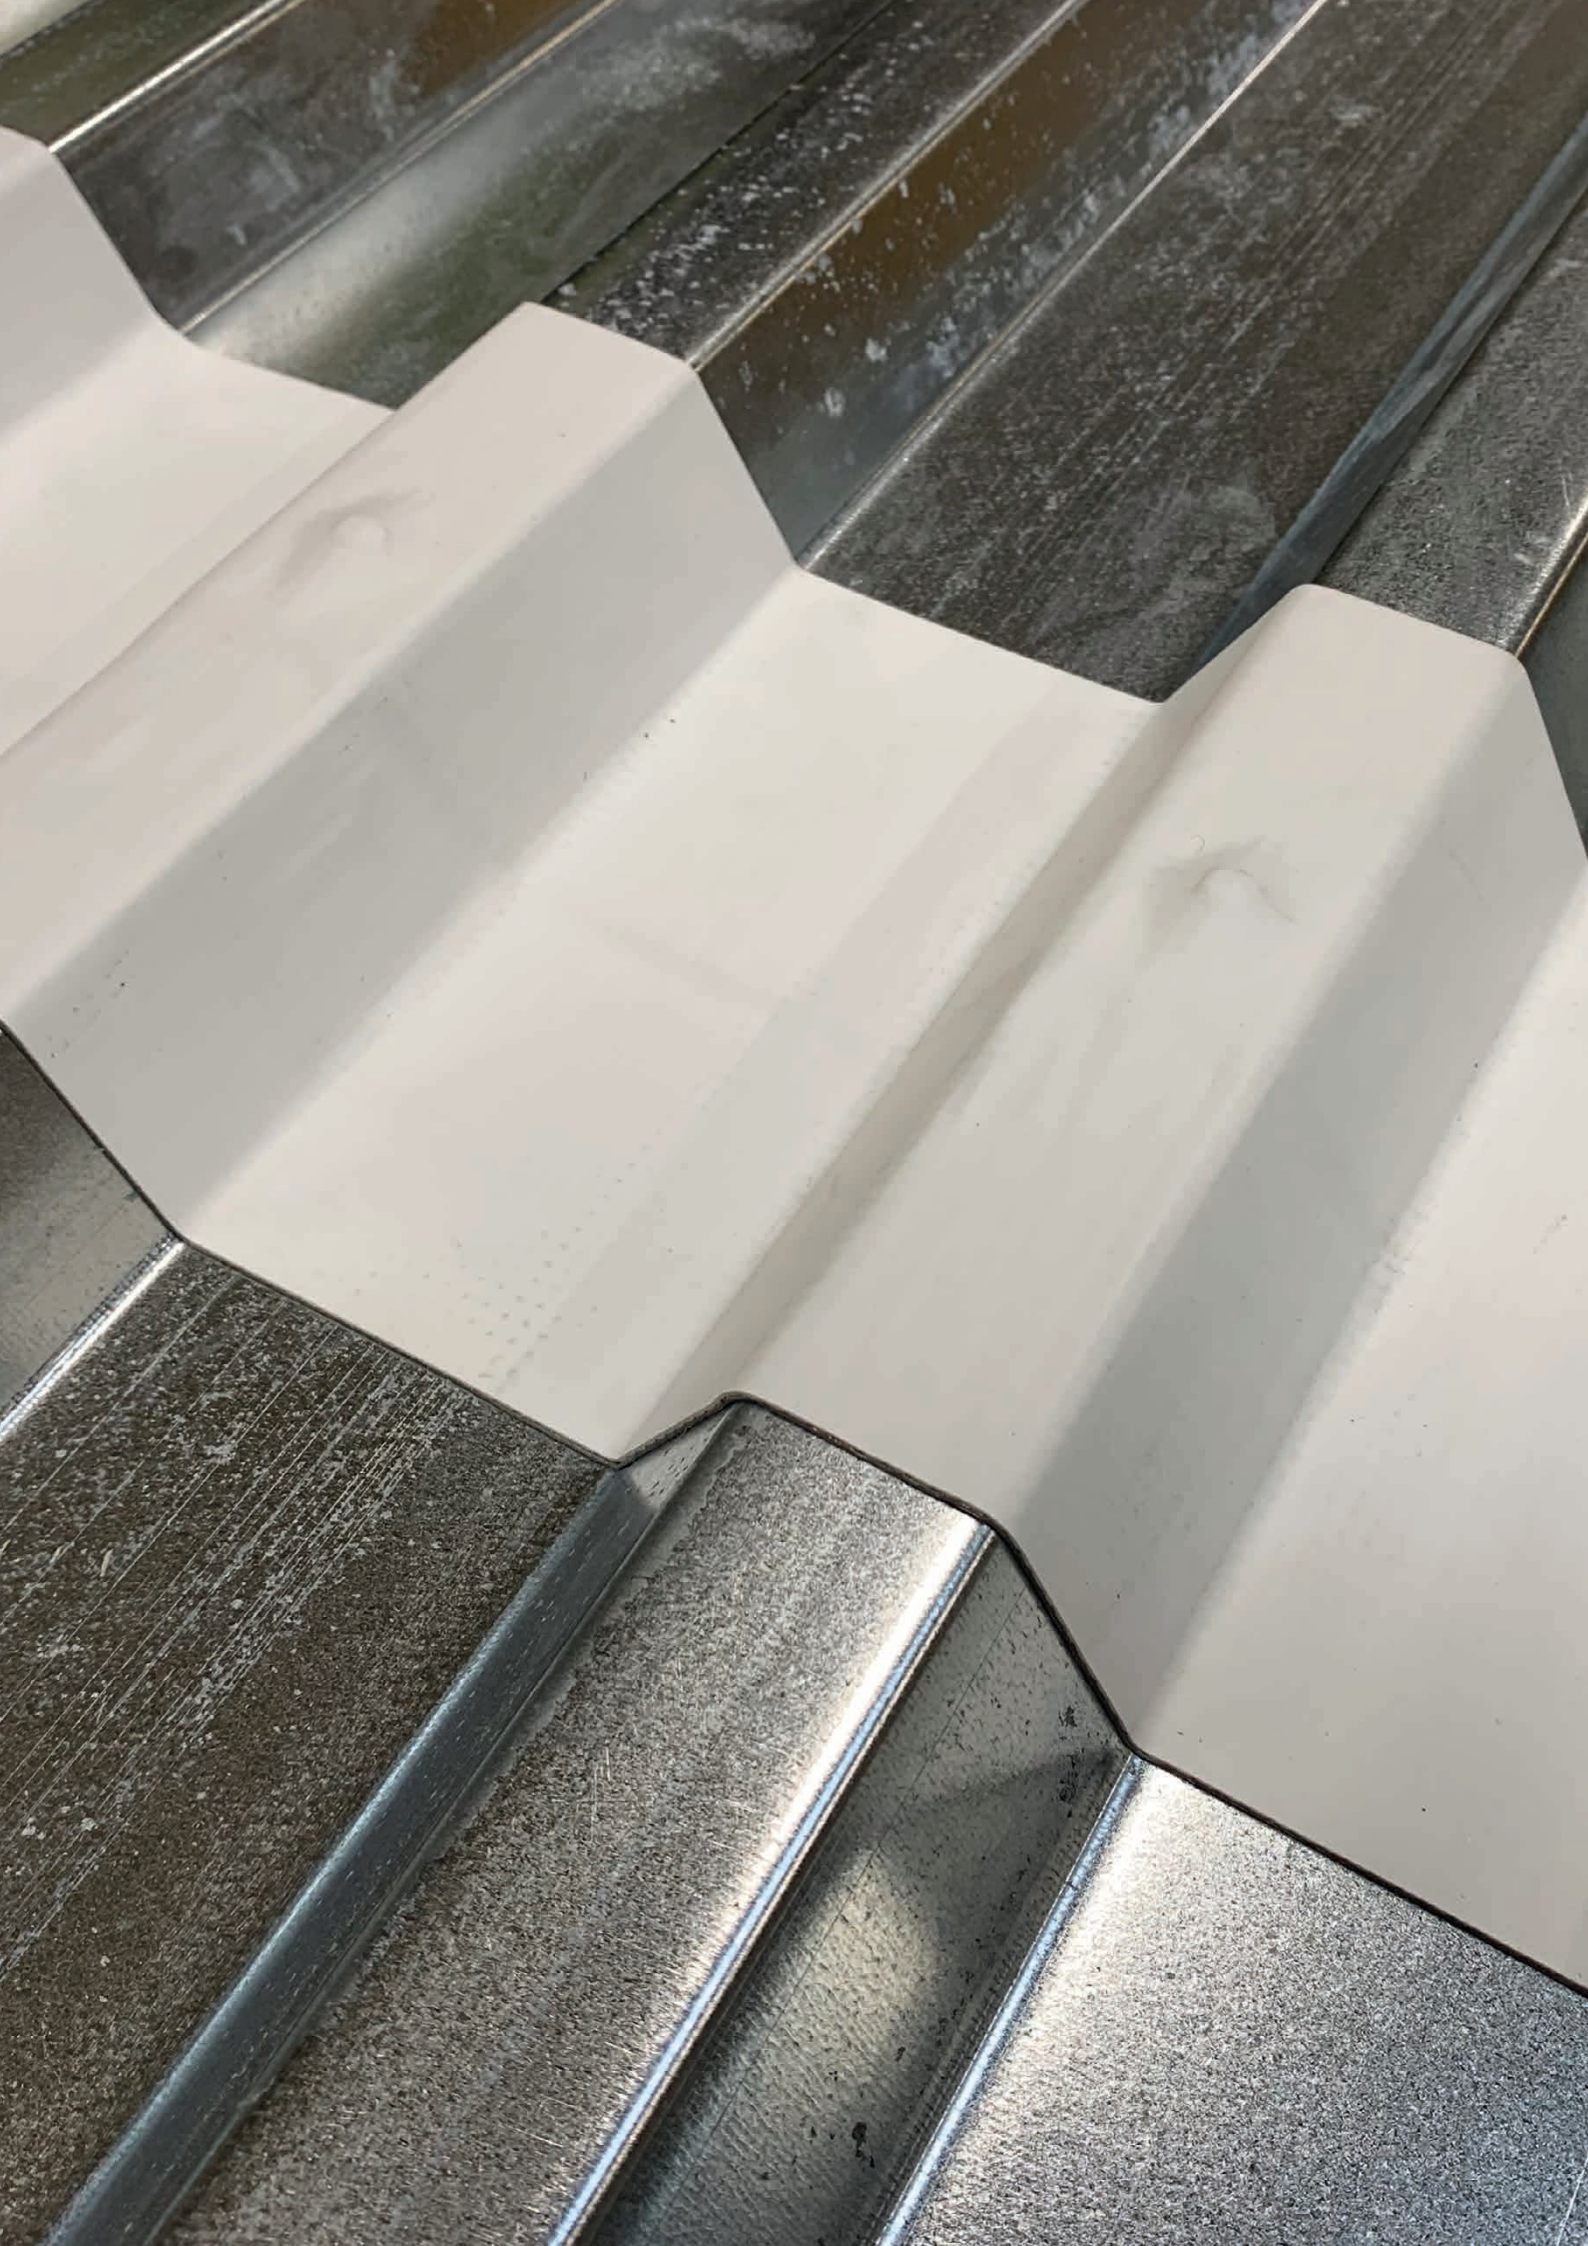

3. Roll-out of new Sarnafil® FPO roof waterproofing membrane.

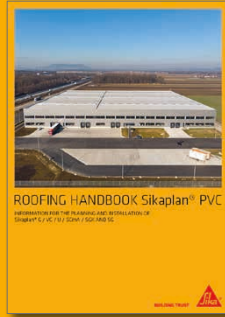

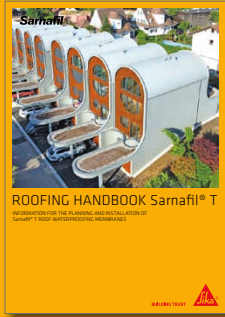

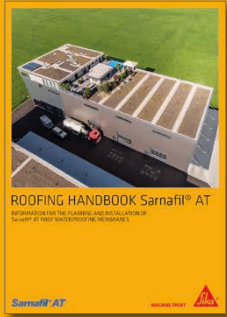

4. Automatic hot-air weld of Sarnafil® FPO membrane onto SikaRoof® Multitape.
