## ONZE-LIEVE-VROUW PSYCHIATRIC HOSPITAL, BRUGES, BELGIUM

FLOORING: Sika® Ucrete® MF, Sika® Ucrete® DP 10

BUILDING TRUST

# RENOVATION OF KITCHEN AND LAUNDRY ROOMS

## PROJECT DESCRIPTION

Project name: Onze-Lieve-Vrouw Psychiatric Hospital

Location: Bruges, Belgium

Year: 2013/2014

Size: 550 m<sup>2</sup>

The Onze-Lieve-Vrouw Psychiatric Hospital in Bruges is a general psychiatric hospital that is part of the “Geestelijke Gezondheidszorg Noord-West-Vlaanderen” network (mental health services for northwest Flanders). The hospital occupies a neo-Gothic building from 1906, a style typical of Bruges during that period. Significant advancements in medicine required substantial infrastructure modifications. Today, the hospital has 412 beds and places and employs 500 people.

## PROJECT REQUIREMENTS

In 2013, the kitchen and laundry rooms needed renovation. The kitchen required a hygienic floor that was easy to clean. The laundry rooms needed a waterproof floor with a good non-slip profile.

## SIKA SOLUTIONS

Sika® Ucrete® flooring, a high-performance polyurethane resin-based flooring, was selected for both areas. For the kitchen, we selected Sika® Ucrete® MF, a self-leveling floor coating that poses no risk of slipping due to its non-stick surface. This coating is dense and waterproof, making it suitable for the food industry and institutional catering. For the laundry room, we chose Sika® Ucrete® DP 10, a coating that provides a uniform structure ensuring the maintenance of the non-slip layer in wet environments for many years.

## PROJECT PARTICIPANTS

Project Owner: Onze-Lieve-Vrouw Psychiatric Hospital

Applicator/Contractor: ISBA
