

# SIKA AT WORK

## KANES FOODS, EVESHAM, UK

FLOORING: Sika® Ucrete® UD 200

BUILDING TRUST

# FLOORING SOLUTION FOR A NEW BUILD FRESH FOOD FACTORY

## PROJECT DESCRIPTION

Project name: Kanes Foods  
Location: Evesham, United Kingdom

Kanes Foods are a leading fresh food manufacturer, priding themselves on providing outstanding, quality produce to the UK market from their £30 million eco factory in Evesham. Their engineers have had a long relationship with Sika® Ucrete®, and the high-quality product has provided them with many years of dependable low maintenance service. Sika® Ucrete® was, and remains a trusted partner for Kanes Foods and the wider food and beverage industry.

## PROJECT REQUIREMENTS

Kanes Foods required a number of functional and durable finishes that also fitted the look of their modern, sleek new build eco factory. Keeping the ergonomic requirements of their staff in mind, they also wanted a more comfortable, aesthetic finish for communal areas, such as changing rooms and corridors, whilst keeping an industrial, hard wearing, resilient floor in their factories that would take wear, regular cleaning and traffic.

## SIKA SOLUTIONS

To provide the best environment for both food processing and non-processing areas, two different flooring types were chosen.

Sika® Ucrete® UD 200 was specified for the food processing areas. Sika® Ucrete® UD 200 is ideally suited to these areas as it is slip resistant, very hard wearing and as cleanable as stainless steel, vital for high care food processing plants like Kanes Foods.

## PROJECT PARTICIPANTS

Project Owner: Arla Foods UK  
Contractor: Lasercroft
