

# SIKA AT WORK

## FRAGRANCE OILS LTD, MANCHESTER, UK

FLOORING: Sika® Ucrete® UD 200, Sikaflex® CR 460

BUILDING TRUST

# HIGH CHEMICAL RESISTANT FLOORING SOLUTION

## PROJECT DESCRIPTION

Project name: Fragrance Oils Ltd.  
Location: Manchester, United Kingdom

Fragrance Oils Ltd specializes in the creation of perfumery essences, natural herbal extracts and flavor compounds for use in the fine fragrance, personal care, air care and household cleaning sectors. Established in 1967, the company has emerged as one of the industry's most dynamic and influential companies.

## PROJECT REQUIREMENTS

The company required flooring solutions that would be chemically resistant, non-slip and hardwearing against their demanding working environment with busy forklift traffic and specialist production chemicals. The solution needed to be suitable for warehousing, production areas, chemical storage and laboratories. The busy and growing production schedule could not be interrupted, and flooring solutions need to be long lasting and low maintenance.

## SIKA SOLUTIONS

Fragrance Oils has specified and installed Sika® Ucrete® UD 200 heavy duty polyurethane screed since the early 1990s. It has provided a uniform and seamless flooring system that created a safe and versatile working environment for employees. Sika® Ucrete® has been installed in each major flooring refurbishment on site and has enabled the company to operate uninterrupted whilst meeting met the most stringent hygiene and cleanliness requirements.

With each project coving was also installed using Sika® Ucrete® RG and all joints were sealed using Sikaflex® CR 460. This ensured total protection of the concrete and ground water. It has proven to be an ideal solution for this progressive and versatile manufacturer and over 8,000 m<sup>2</sup> of Sika® Ucrete® flooring has been installed over 25 years.

The Sika® Ucrete® flooring solution provided a slip resistant, easily cleanable floor surface and was applied to areas of both new and existing concrete floor slabs. The project was completed with no disruption to the tight production schedules within the factory.
